## Skills

Clear communication

- I know how to communicate clearly and concisely
- If I don't understand something, I will ask clarifying questions.
- I ask relevant questions.
- I bring solutions to the table if I notice a problem.

Problem-solving

- I am quick to understand the problem and won't rely on others to provide solutions.
- I understand when to ask for help and when to push forward and find the solution on my own.

Learning

- I am very quick to understand concepts, instructions, and how to act on them.
- I need very little teaching for new concepts before I start understanding the ideas behind it and how to incorporate it into what I'm doing.
